

YOUR MUSIC—YOUR TRACKS—YOUR PRODUCTION

Do you want to join a real hands-on, state-of-the-art course in Music Production for Music makers, Bands, DJs, Producers, Sound Engineering or Sound for Creative Media

At IMW you can train in Solid State Logic (SSL), ProTools, LogicPro and Native Instruments for recording your own music, audio engineering /mixing or DJ production or sound design for film or video games.

You will get into live musician/band or electronic music production, record and mix your music to a professional standard to become a competent studio musician/band, DJ producer, sound engineer or work in sound to picture or video games.

You can gain entry to a nationally recognised UK qualification at higher education level. All our HND graduates gain an automatic offer of a place on the third year of the degree course at the University of West London.

We will train you up to work on your own productions, in hi-end professional recording studios or enable you to set up your own recording/music production studio.

IMW can get you **FURTHER FASTER**. We have over 30 years experience in teaching beginners and experienced music makers the production, audio engineering and sound design skills to get qualified and get the job.

IMW is proud of its very exciting tie-in with Peter Gabriel's company Solid State Logic to provide:

- The 48 channel SSL DUALITY SE console – controlling and recording 24 track analogue tape and ProTools
- The 48 channel SSL AWS948 console – controlling and mixing to ProTools
- 24 SSL NUCLEUS workstation consoles – controlling and mixing to Logic.

So, you will have an SSL Nucleus console on your own individual workstation controlling LogicPro and work your way up through SSL consoles to the flagship Duality SE 48 channel console running ProTools and Native Instrument software. We are absolutely convinced that the SSL formula of combining digital audio workstation (DAW) control with high-end analogue recording and mixing is the way to go for your education and training in 21st century music production. With our courses and this technology you can train up to full operator/engineer/producer level: a sound engineer, a dj beats producer, sound designer for film or games, or a musician/band with more control in the studio.

If you are on benefits or a zero hours/part-time contract (see page 6) fees are just £200 for a place on our 20 week **Fast-track** Diploma course. If you are working and a UK/EC applicant you can now get a place for £495 (includes a 40% discount). And you can study at times that suit your lifestyle. Don't delay if you want to secure your place on the March 2018 course - they fill up very quickly!

Our courses have been so much in demand that we are now able to offer you direct access to a great choice of courses in Music Production at unbelievable value! IMW is the only educational institution in the UK which gives you hands-on training on the full range of SOLID STATE LOGIC's music production consoles. More hit music and sound for TV, film and multimedia is recorded/mixed throughout the world on SSL consoles than any other! A massive 75% of US No1 singles were recorded on SSL consoles.

The IMW Campus has a full-on professional recording studio and live room equipped with the SSL 48 channel DUALITY SE and ProTools HD. PLUS an SSL Matrix production studio with 12 SSL NUCLEUS work-stations controlling ProTools AND an SSL AWS96 production studio running Pro Tools plus a studio with 12 SSL NUCLEUS workstations running Logic Pro.

PERSONAL GUIDED TOURS

If you would like to visit IMW Studios

call **0207 608 0231** or
email admin@imw.co.uk

No other institution in the UK (anywhere in the world?) can offer you professional training at this level of technology at this price! Plus a fast track opportunity to gain an internationally recognised qualification at the end!

Our students are into every kind of music. Some are exploring the technology for the first time. Others are already into it but need to enhance their skills.

IMW graduate, Paul Epworth produced the 2nd biggest selling album of all time and won an Oscar, Grammys and Producer of the Year awards. Others secured work at top recording companies/studios including: BBC and Sony in the UK and Pacific Ocean Post, Disney and Microsoft in the US.

Our graduates have engineered platinum hit singles and albums or gone on to create, mix or re-mix their own tracks and engineer live gigs. Many have gone on to our higher education HND programme and are really getting to grips with our fantastic SSL technology and their music.

So everything about the course, from the people you will meet, the top quality training and facilities, to the qualification you end up with, means that this is a fantastic opportunity for you to invest in your future!

We have a limited number of places available and demand is very high. You will see from the application form that the dates for the next courses are a little way ahead, however they do fill up very quickly so you are advised to apply as soon as possible. We look forward to hearing from you.

John Dennis
IMW Director

1. IMWFAST-TRACK Diploma course

inMusic Production 20 weeks

Course Details

If you want to work in the sound recording industries, record your own music or bands or plan to go on to our higher education HND in Music Production or would just like to see if this is the career for you - then this is the course for you! The aim of this intensive course is to give you a qualification in music making/ sound recording and music production on SSL consoles running Logic Pro, Pro Tools and Native Instruments software. You will be able to take that next step in the industry or apply to our intensive higher education programme

You will also increase your confidence and competence across all contemporary music production techniques that include rehearsing, recording and mixing using: the SSL 48 channel Duality and AWS948 consoles; Pro Tools and Logic Pro; workstation based electronic music composition using Logic Pro software; hands-on workstation production techniques using the SSL Nucleus control surface.

The main course takes place in our SSL AWS/Nucleus studios running Pro Tools, Logic software. It includes sessions on the production of live/electronic music including composition, beat building, sampling and synthesis. It will also provide an introduction to the techniques associated with creating sound and music for film. The course includes demonstrations and sessions in the SSL Duality SE/ProTools HD studio, covering practical recording and sound theory.

We have taken great care to ensure that you will get the individual hands-on practice to enable you to fulfil the requirements of the course. The course is designed around the realities of pre-production, recording/mix sessions and post production and introduces the skills you need to meet the demands of working in a professional audio environment.

The course covers:

1. Sound Studio practice: recording live musicians using SSL consoles; monitoring, equalisation, dynamics and effects, console configuration, track management, overdubs, mixing mic techniques and sound theory.
2. Computer sequencing: track and beat building, comparative platforms, and programs focusing on Logic, ProTools and Native Instruments; arrangement and editing of sequences; production techniques and sound processing; synthesis and sound design techniques; file management and mastering.
3. Sampling and Digital Audio: overview of software samplers and editing techniques; using and editing audio loops and library SFX; audio layering and synthesis for sound design; intergration of sampling for production and post production.
4. Two projects based on live recordings/electronic music production with an option to create a sound and music to picture project .
You will receive the qualification because you will have produced a portfolio of competent written course work, successful practical assignments and a show reel of 2 Projects.

You will have satisfied IMW that you have reached the high level of competence required to pass all the modules in this course.

With this qualification you will be equipped to decide your options in the exciting world of professional music production, sound design and sound production with confidence and ability.

Course Length:	20 weeks
Entrance Quals:	2 GCSE's/experience 19+ yrs of age.
Fees:	£200. Concessions* £495 discounted fee. All other UK/EU residents.

2. IMWFASTTRACK HND

in Music Production (2x27 weeks equiv to

first two years of a degree course)

UCAS code W374 - Institution Code C65

The course is 12hrs per week at IMW and 2 hrs per week at our partner college: times tba

Assignments

'Year' 1 / HNC / Level 4

The first 27 weeks of study will enhance your core musical/technical skills in music production and the use of key SSL technology: Nucleus, Matrix, AWS948 and the Duality controlling ProTools, Logic and Native Instruments.

You will explore techniques in musicianship/ music production and sound engineering in a variety of contexts including music production, sound recording live musicians, video games sound production and film sound production.

You will also develop critical skills in playing/listening, research and analysis of music and production.

Core topics include:

- Music and Production in Context
- Sound and Music Technology Systems
- Sound Design for Film/Games Project
- Music Recording Project
- Production Portfolio of above projects

'Year' 2 / HND / Level 5

In the second 27 weeks of study you will extend your level of technical skills in musicianship/sound engineering and music production, focusing in detail on the operation of the SSL Duality console throughout the studio production process: recording, mixing and mastering. You will develop your technical abilities alongside independent project management and project analysis and evaluation. You will also choose a specialist career pathway to follow in your major practical project and research project: **Music/Band Producer, Dj Producer, Sound Engineer, Sound Designer for Film/Games** and have individual access to the SSL Duality studio.

■ CORE TOPICS

- Listening/Musicianship Skills
- Sound Recording Techniques
- Sound and Music Production Techniques
- Individual Musical/Technical Proficiency
- Online networking
- Project Evaluation

Specialist Career Assignments

■ Subject Specialist Research:

Live or Electronic Music Production /
Sound Engineering / Sound Design for Film/Games

■ Major Project:

Live or Electronic Music Production /
Sound Engineering / Sound Design for Film/Games

The HND is equivalent to 2 years of a Degree course. All HND graduates will automatically be offered a place in year three of the Degree course at the University of West London to complete your degree. Or you will be able to opt for a University of your choice if that's what you want to do.

Course Length: 54 weeks (2 x 27 weeks)

Entrance Quals: IMW Diploma (merit grade) or BTEC Level 3 in Music or Music Technology OR 2 A-Levels (one in Music or Music Tech. at Grade C).
Plus portfolio and interview.

Fees: £6000 Student Loan
(per 27 weeks)

You can apply for a loan for the fees from the Student Loan Company (www.slc.co.uk/services/undergraduate-support.aspx) and you can also apply to them for a Maintenance Loan for your rent and living costs for up to £7,000. So if you are signing on you can get off benefits and focus on what you really want to do for the next three years. There are no credit checks and no loan repayments are due until you are earning over £21k pa.
